

Part Number: **TC402-43, 1RU, 24 PORT, UTP JACKS
TC402-44, 1RU, 24 PORT, STP JACKS
TC402-45, 2RU, 48 PORT, UTP JACKS
TC402-46, 2RU, 48 PORT, STP JACKS**

Description: **Modular Patch Panel with cable support bar, 19" rack mount, Unloaded, to suit HY Series jacks**

Document name: **PGTC402-43**
Issue/Version No: **1.1**
Date: **23/08/2018**
Page: **1 of 1**

Use / Application:

The Hypaconnect HY Series modular patch panel is easy to install in any network environment. The rear cable support bar provides a tie down and cable management point for LAN cable and the front patching fields contains a labelling area for identifying connections. These patch panels are unloaded and suit the HY Series modular jacks, including Category 6A STP, Category 6A UTP and Category 6 UTP, which are ordered separately.

Benefits & Features:

- Unloaded patch panel
- Available in 1 RU 24 port or 2 RU 48 port
- Suitable for 19" mounting formats
- Rear cable management support bar
- Steel powder coated panel
- Suits HY Series modular jacks – Category 6A STP, Category 6A UTP and Category 6 UTP
