

Product Number: **TC402F0150P**  
Stock Code: **T012080**  
Description: **1RU High Density 48 port RJ45 modular patch panel**

Document name: **PGTC402F0150P**  
Issue/Version No: **1.0**  
Date: **02/08/2022**  
Page: **1 of 1**

## Use / Application:

The Hypaconnect HY Series modular patch panel is easy to install in any network environment. The rear cable support bar provides a tie down and cable management point for LAN cable and the front patching fields contains a labelling area for identifying connections. These patch panels are unloaded and suit the HY Series modular jacks, including Category 6A STP, Category 6A UTP and Category 6 UTP, which are ordered separately. It provides a high density 48 port configuration in 1RU.

## Benefits & Features:

- Unloaded patch panel
- High Density 1 RU 48 port
- Suitable for 19" mounting formats
- Rear cable management support bar
- Steel, non powder coated finish
- Suits HY and HZ Series modular jacks –Category 6A STP, Category 6A UTP and Category 6 UTP
